

MULTI-BAY ANTENNA INSTRUCTION SHEET

WARNING: Installation of this product near power lines is DANGEROUS. For your safety, read the enclosed "DANGER" booklet before beginning your installation.

STEP 1 Attach antenna to mast using square U-bolts and mast clamps as shown. See FIG. A.

STEP 2 Secure transmission line to tap-off points with washers and wing nuts as shown and run transmission line down mast. See FIG. B.

ALTERNATE MOUNTING METHOD: Insert swaged end of antenna crossarm into $1\frac{1}{4}$ " mast. Face antenna in proper direction, tap down on top of crossarm to secure into mast. See FIG. C.

NOTE: For translator stations (Channels 70-83), break off ends of dipoles (indicated by notch) approximately 1" from each end. See FIG. B.
