

QCN7001B Q-See Platinum Series 720p Resolution Weatherproof Bullet Camera

Featuring color-rich 1280x720 image quality, grainy footage is a thing of the past with the QCN7001B High Definition IP Cameras. Dual encoded streams provide a streaming signal with reduced bandwidth and, with a maximum frame rate of 30 fps, live and recorded video plays smoothly and continuously. Q-See's 720P bullet style IP Camera is the ultimate, versatile tool for your surveillance needs. Effortlessly add HD quality 720p resolution using the exclusive plug and play simplicity of the Q-See NVRs. Or, easily use it as a high definition, stand-alone system! The camera's built-in web server makes it easy to stream and share video without a direct connection to a NVR. All that is needed is an internet connection and a router! With the included Anti-Fog feature, never worry about changing weather conditions affecting your camera's lens. Versatile 3-axis brackets allow each camera to be mounted to just about any flat surface, such as a wall or ceiling, for optimal visibility. The included brackets also prevent vandalism by fully protecting sensitive camera wires and safely routing them through walls.

KEY FEATURES:

- **Cameras:** 720 TV Line High-Resolution, 1/3 Color CMOS Color Sensor - 1280 x 720 MAX Resolution
- **Weatherproof Camera:** Suitable for indoor and outdoor use
