RETRODECK

DISH MOUNTING SYSTEM

- Powder coated finish
- Stamped 16 gauge galv. steel
- Deck supports dishes up to 36"
- Wind tested with dish to exceed all industry specifications
- Comes complete with hardware pack and installation instructions

1
Locate truss with stud finder, lift shingles with prybar at dish location, do not lift middle row

2
Before screwing base plate to roof, align both base & deck plate to assure shingles will fall into place

3
Install base plate with trushead screws

4
Install dish foot on deck plate with cap bolts

5
Lift upper shingle and slide deck plate under shingle, seat deck plate over base plate

6
Use tek screws to secure deck plate to base plate

7
Lift shingle, install deck plate using trushead screws, use small amount of roof cement under top shingle

8
Completed install

Use Deck Adapter kit to easily mount antenna to RetroDeck or CommDeck Mounting Systems

setting the standard in dish mounting
