

TH-LVD-80

12 & 24 Volt / 80 Amps
4.75" x 2.25" x 1.25"

TH-LVD-200

12 & 24 Volt / 200 Amps
4.75" x 2.25" x 1.25"

TH-LVD-500

12 & 24 Volt / 500 Amps
4.75" x 2.25" x 1.25"

No More Dead Batteries!

THOR programmable low voltage disconnects offer a simple, low cost and unobtrusive method for protecting your battery from damage due to total discharge. 12/24V auto ranging, the TH-LVD automatically detects system voltage.

Designed and Engineered in the U.S.A.
Made in China

TH-LVD-KIT Low Voltage Disconnect

No More Dead Batteries!

TH-LVD Programmable LVD / Battery Isolator Kit For 12V and 24V DC Systems

Automatically disconnects non-critical loads from a battery when the battery voltage falls below a predetermined threshold.

Who should use the THOR TH-LVD?

- Law Enforcement
- Work Trucks
- Heavy Duty Vehicles
- High Electrical Loads
- Recreational Vehicles
- Marine Applications

Disconnects non-critical loads from a battery when the battery voltage falls below a predetermined threshold. Automatically reconnects the loads to the battery when it is being charged which prolongs battery life by preventing premature damage. No more stranded vehicles! Avoid the time and expense of getting your vehicles towed. The THOR LVD ensures that there is enough power to start, and increases battery life on vehicles.

Kit Includes:

Low Voltage Disconnect

Battery Isolator

Inverter Bypass Switch
